

We will get vaccinated – and you?

**All over the world, people are worried about Corona.
Vaccination can help protect ourselves, our families, and others.
You can also help and get vaccinated!**

Why you should get vaccinated:

- 1 Becoming ill with Covid-19 can have serious consequences.
- 2 By being vaccinated you can protect yourself, your family and others.
- 3 The vaccination is safe – over 1 billion doses of the corona vaccine have now been administered worldwide. The vaccines have been checked and tested for tolerance and for effectiveness.
- 4 By being vaccinated you will be able to return to normal faster and regain more freedom.
- 5 The vaccination has no influence on your residence status or the course of your asylum procedure.
- 6 Vaccination is free of charge.

We offer vaccinations for adults in this facility. Would you like to have a corona vaccination? Then please contact the **ORS team**. We would be happy to advise you!
